Responsibilities for CRP Contract Holders

CRP contract holders have certain responsibilities for carrying out the terms and conditions of the CRP contract. Those include, but are not limited to:

- ✓ Control all weeds, insects, pests and other undesirable species to the extent necessary to ensure that the establishment and maintenance of the approved cover is adequately protected and there is no adverse impact on surrounding land.
- ✓ Establish and maintain the required vegetative or water cover and other required practices.
- ✓ No activity may be conducted on CRP acres without authorization.
- ✓ Prior approval must be received from FSA before any harvesting, grazing or other commercial use of the forage may begin.
- ✓ If land with a CRP contract is sold, the new owners should notify the local county FSA office if they want to continue the contract.

If the land is sold and the new owner does not wish to continue the CRP contract, you will be required to repay all payments received on the contract plus interest and liquidated damages. Liquidated damages are equal to 25 percent of the annual rental payment on those acres not contracted by the new owner.

NOTE: There are two primary nesting Dates

May 15 – July 15 *FSA State Committee established Primary Nesting Season for CRP*

May 15 – August 1 *Primary Nesting Season for CRP contracts affected by the National Wildlife Federations settlement agreement with FSA*

Check the Conservation Plan of Operations (CPO) for the primary nesting dates that apply to your CRP contract

LOAN and LDP Violations

Incorrect Certification is either of the following:

- ❖ Certifying a quantity in excess of the quantity eligible for loan or LDP
- ❖ Making any fraudulent representation with respect to obtaining loans or LDPs.

Unauthorized Removal is the movement of any farm-stored loan quantity from the storage structure where the commodity was stored or structures that were designated when the loan was approved to any other storage structure whether or not the structure is located on the producer's farm without prior written authorization from the COC. Unauthorized removal is considered a violation if the producer does not maintain control of the commodity or CCC loses first lien on the collateral.

Unauthorized Disposition is the conversion of any loan quantity pledged as collateral for a farm-stored loan without prior written authorization from the COC.

Consequences of Loan and LDP Violations may be:

- ❖ Assessment of liquidated damages and other administrative actions, and shall be liable for monetary amounts as specified in the applicable regulations and terms and conditions of the applicable forms.
- ❖ Criminal prosecution under Federal Law.

Farm Reconstitution

A completed farm reconstitution to divide or combine farms will result in the termination of the Direct & Counter Cyclical Program (DCP) contract. The farm producers may enroll the base acres for a crop year by signing a new DCP (CCC-509) for the resulting farm (s). This must be done by August 3 or 30 days after written notification that the farm reconstitution has been completed. If a CCC-509 is signed between August 3 and September 28, a \$100 user fee will be assessed. The fee is waived if the reconstitution is requested by August 1 and all signatures are obtained within 30 days following the written notification. The failure to timely enroll the base acres may result in loss of payments.

Loan & LDP Final Availability Dates

Loans and LDP's are available to eligible producers who have:

- ❖ Reported acreage of the crop for which a loan or LDP is requested.
- ❖ Complied with all other program provisions

Request for loans and LDP's shall be made on or before the final availability date. Following are the final availability dates for crops harvested in 2005 for eligible grains, oilseeds, pulse crops, wool & mohair and honey:

Commodity	Availability Date
Corn, Grain sorghum, Mustard seed, Safflower seed, Soybeans, Sunflower seed, Dry peas, Lentils and Small chickpeas	May 31, 2007
Wool/mohair for wool/mohair clipped in calendar year 2007	January 31, 2008

2007 Final Year of DCP Program Under 2002 Farm Bill

The sign-up deadline for the 2007 Direct and Counter-cyclical Program has been extended from June 1 to August 3, 2007. The extension applies only to the enrollment time frame and does not extend the annual DCP contract period beyond September 28, 2007. A late-file fee of \$100 will be assessed for farms that are enrolled after August 3, 2007 but no later than September 28, 2007. Applications filed after September 28, 2007 cannot be approved.

We encourage you to sign up early to avoid the \$100 late file fee. Contact the office to set up an appointment.

Prairie County FSA Open House

Please come meet the Prairie County FSA Committee for coffee and cookies June 13 from 3-5 pm and ask them questions about the upcoming election.

COC Election Approaching

Beginning **June 15, 2007**, nominations are being accepted for candidates for County Committee (COC) positions.

A county or area served by the COC is divided into local administrative areas (LAA). Each LAA is represented by one member on the county committee. Only one LAA holds an election each year. This year the LAA open in Prairie County is the LAA North of the river.

The nominee must sign the nomination form in order to be nominated as a COC member.

Nomination forms are also available at the county office or by logging on to the Montana FSA website at: <http://www.fsa.usda.gov/mt>.

Please remember that as a county committee member you are the local voice of how FSA programs are administered to meet your local community and resource needs.

Nomination forms must be submitted to the FSA county office by **August 1, 2007**. Ballots will be sent to eligible voters beginning November 2, 2007. The final day for voters to submit their voted ballots is December 3, 2007.

2007 Acreage Reports

All acreage reports need to be accurate and filed by the final reporting date of **July 16, 2007**. Certification is mandatory if any of the following apply:

- ◆ You receive DCP payments
 - ◆ You have acres enrolled in CRP
 - ◆ Loans or LDP's will be requested; including Wool, Mohair and Honey (*All cropland on the farm must be certified to be eligible for DCP and loan program benefits*).
 - ◆ Acreage is covered by NAP
- Failure to report accurately may result in loss of program and price support benefits.

Measurement Service Charges

On farm measurement is charged at:

- Basic farm fee of \$30.00;
- Plus an hourly rate of \$16.00 for the first hour and \$8.00 for each additional ½ hour after the first hour. The minimum is 1 hour.

The hourly rate includes the time to travel from the FSA county office to the farm, complete the measurement service and return to the county office.

An "Initial Fee" is required at the time the measurement service is requested and the fee must be collected before the measurement service is performed. The initial fee will be the basic rate plus the hourly minimum. Once the service has been completed the actual fee will be calculated. The initial fee will be subtracted from the calculated fee and a letter will be sent informing you of the additional amount owed. If the amount is \$9.99 or less then an additional fee is not required.

In-office measurements are charged at:

- a basic farm rate of \$15.00 plus a 30-minute minimum rate of \$8.00.

Bin site measurements will be calculated according to the farm number and the physical location of the bins:

- for one farm with multiple bin sites, only one FSA-409 (a written request to have acreage measured by FSA) is required;
- for multiple farms and all the grain is stored in bins at one site, only one FSA-409 is required where the bin site is physically located;
- for multiple farms with a different bin site for each farm, a separate FSA-409 is required for each farm and bin site.

NAP Notice of Loss

A notice of loss will only be accepted on form CCC-576! The CCC-576 is available either on-line or at the Prairie County FSA Office. Phone calls or hand-written notes stating you have a loss are not acceptable notification of a crop loss.
